VIEWING & PRINTING TIPS

- ✓ You should save this file to your computer so you can revisit at your convenience to print pages as needed.
- ✓ The latest version of Adobe Acrobat is recommended. You may have more than one version on your computer. Uninstall the old version(s) if you are having problems.
- ✓ Adobe Acrobat Reader may have the option "Fit to Page" checked by default. This may or may not result in a better printout. Experiment with this to get the best results & correct size.
- ✓ If you have problems printing, try checking the option "Print as Image."
- ✓ If the pages are printing without the images, your computer may be low on memory or resources. This is a common problem associated with Adobe Acrobat Reader. Restart your computer and try printing again. Also try sending fewer pages to the printer at a time. If you don't have the most current version of Acrobat, you may also experience problems
